

Time Reveal Mask

THE COSMETIC INNOVATION THAT MAKES EFFICACY VISIBLE IN REAL TIME

Time Reveal Mask meets the expectations of modern consumers looking for visible efficacy, effortless application, and an enhanced sensorial experience. The visible transformation during use offers instant reassurance of performance while introducing a playful, interactive, and distinctive touch to the beauty ritual.

INGREDIENTS
98.5%
OF NATURAL ORIGIN

A unique metamorphosis

During application, the mask evolves: the initially opaque hydrogel becomes translucent, visually revealing the different stages of the treatment and indicating the optimal time to remove it.

This innovative technology combines advanced galenic expertise with a unique sensorial experience.

Two formulas, two targeted experiences

- **Time Reveal Mask - Face:** a glow and anti-aging formula enriched with collagen, featuring a 2-hour application time. Ideal for revitalizing and brightening the complexion.*
- **Time Reveal Eye Patch:** a version designed for the eye contour area, offering anti-aging and de-puffing benefits, with a 30-minute application time only.

Both formulas adapt to different lifestyles and beauty rituals for a tailor-made skincare experience.

Multiple uses

- **Retail use:** a self-care break, at home or while traveling (plane, train, etc.)
- **Professional use:** as a complementary treatment during a manicure, massage, or body care session
- **Spa or institute use:** to enrich professional protocols with a visual and sensorial experience

*2-hour version: the Time Reveal technology can be applied to any existing hydrogel reference from the Technature catalog.

Time Reveal Mask

THE COSMETIC INNOVATION THAT MAKES EFFICACY VISIBLE IN REAL TIME

A unique industrial expertise in Europe

For over 10 years, Technature has invested in a dedicated industrial site specializing in the production and filling of natural-origin hydrogel masks and patches. This expertise and in-house mastery make Technature the only European manufacturer capable of developing and producing this innovative and specialized technology.

A natural and high-performance formulation

Composed of 98.5% ingredients of natural origin, Time Reveal Mask is based on a matrix of carrageenans, polysaccharides extracted from red algae. This natural film-forming gel ensures an even and controlled diffusion of active ingredients onto the skin while providing comfort and proven efficacy.

Key ingredients

Time Reveal Mask - Face

- **Marine wrinkle-filling active:** a marine exopolysaccharide that delivers an immediate wrinkle-smoothing effect along with long-term global anti-aging benefits. Stimulates the synthesis of hyaluronic acid, collagen, and elastin to redensify and firm the skin structure.
- **Collagen:** a key structural protein that supports skin firmness and elasticity while providing deep hydration and visible anti-aging action.
- **Grape extract:** naturally rich in antioxidants, this botanical ingredient revitalizes and protects the skin, leaving the complexion radiant and healthy-looking.

Time Reveal Eye Patch

- **Eye-brightening active:** derived from the brown algae *Fucus vesiculosus*, this marine active helps reduce dark circles and fine lines, restoring natural radiance and vitality to the eye area
- **Collagen:** reinforces skin firmness and elasticity while offering long-lasting hydration and anti-aging benefits.
- **Green tea extract:** a powerful antioxidant known to tone, soothe, and visibly improve the appearance of the eye contour.

Use

- Apply the mask or eye patches to clean, dry skin.
- Leave on until the gel becomes translucent - the visible sign that the actives have been fully released and the treatment has reached optimal efficacy.
